Art Unit: 1764

DETAILED ACTION

Election/Restrictions

- 1. Applicant's election of Group I, claims 17-32, 35-36, in the reply filed on 1/4/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
- 2. Claims 33-34 are withdrawn from further consideration pursuant to 37 CFR

 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on 1/4/06.

Drawings

- 3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 130' (paragraphs 0067, 0092); 1 (paragraph 00100). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filling date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
- 4. The drawings are objected to because in Fig. 2 "130" (at the bottom left) should be changed to -130'-. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are

Application/Control Number: 10/070,932 Page 3

Art Unit: 1764

required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filling date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

5. The drawings have not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the drawings to comply with CFR 1.84(p)(5), e.g. they should include the reference sign(s) mentioned in the specification and vice versa.

Specification

6. The disclosure is objected to because of the following informalities:

On page 9, paragraph 0047 –or opening– should be inserted before "22" (note paragraph 0042).

Appropriate correction is required.

Application/Control Number: 10/070,932 Page 4

Art Unit: 1764

7. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

- 8. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 9. Claims 23-24, 28, 30-32, 35-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 23, it is unclear as to how the gas inlet and outlet are related to the gas inlet and outlet set forth in claim 17, lines 5-6; in lines 2-3 it is unclear as to what gases are implied by "these gases".

In claim 28, it is unclear as to what structural limitation applicants are attempting to recite and where it is shown in the drawings; it is also unclear as to how the inlet for oxidation air and the inlet for cleaning air are related to other elements of the device, how the inlets are related to the gas inlet set forth in claim 17 and what is intended by "inlet for cleaning air".

In claim 30, lines 1-2, "the oxidation catalyst" and "the mechanical filter" have no clear antecedent basis.

Claim 31 provides for the use of a treatment device for treating exhaust gases from an internal combustion engine, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to

Art Unit: 1764

encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 32 recites a vehicle, but, since the claim does not set forth any parts involved in the vehicle, it is unclear what vehicle applicant is intending to encompass.

In claim 35, it is unclear as to what structural limitation applicants are attempting to recite and where it is disclosed in the specification and drawings. See claim 36 likewise.

Claim Rejections - 35 USC § 101

10. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

11. Claim 31 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd.* v. *Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Allowable Subject Matter

- 12. Claims 17-22, 25-27, 29 are allowed.
- 13. Claims 23-24, 28, 30-32, 35-36 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 101 and 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
- 14. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not teach a device for treating a particle-laden gaseous

Art Unit: 1764

medium having at least one corona-effect electrostatic filter with all of the specifics as recited in the instant claims.

Conclusion

15. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kammel and Martin et al are cited for showing state of the art.

16. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hien Tran whose telephone number is (571) 272-1454. The examiner can normally be reached on Tuesday-Friday from 7:30AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on (571) 272-1454. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
